

# Evaluating Water Status

Are You Water **Positive** or **Neutral**?

As per NITI Aayog Guideline on Achieving Water Neutrality for Indian Industry

## Certification

### Scope I

Water (Neutral/Positive)  
Aspiring Plant/Company

### Scope II

Water (Neutral/Positive)  
Rising Plant/Company

### Scope III

Water (Neutral/Positive)  
Achieved Plant/Company

## Benefits

- De-risking business for a water-secure future
- Gaining Competitive Advantage
- Improved Brand Differentiation/ visibility
- Ensuring Water Resilient Supply Chains
- Enabling water-based green credits
- Building Community and Stakeholder Trust
- Appropriation of measures and strategies (short-term, medium-term, and long-term)

**Achieving measurable and a Net Positive impact on Availability, Quality and Accessibility**
